

PROJECT ARCHITECTS

PGAV

Collaboration is at the heart of what we do. At PGAV, the next great idea may be yours. It is through this spirit of partnership with our clients and a professional esprit de corps, that PGAV creates next generation environments for our clients in a rapidly changing world. Our success across the firm's 57-year history has us believe we are stronger together, both as colleagues and members of our communities, as we shape environments to learn, work, discover, and play.

PGAV Architects, PGAV Destinations and PGAV Planners provide global thought leadership in exciting markets with projects that span the nation and five continents. Our team of over 150 professionals bring energy and creativity along with the belief that design can be transformative. PGAV Architects executes exceptional work across multiple markets including education, science & technology, civic, cultural, academic library, and workplace.

Project Architects

PGAV Architects is seeking full-time Project Architects for our Kansas City office. All levels of experience are welcome to apply. Ideal candidates bring 3-15 years of experience with multi-faceted skill sets, positive energy, and an interest in producing quality work that meets the high standards which set PGAV apart.

The desire to serve our clients and elevate their projects through your direct involvement is the collaborative approach we are looking for. We seek architects who will provide thoughtful input on design while managing the technical development and coordination of documents.

At PGAV you will:

- take initiative for moving projects forward in all phases of design
- work with internal team members and outside partners to meet clients' vision and goals for project financial, timeline, and quality metrics
- develop strong relationships within the firm, with our clients, with our consultants, and in our communities
- lead the process to develop and coordinate quality documents
- bring strong skills in Revit and other software applications related to documentation, visualization, and associated design tools
- mentor younger staff on their way to licensure and achieving professional goals
- research materials, lead times, cost, system integration, and other parameters to provide our clients with quality outcomes

PGAV offers competitive salaries with an industry leading and progressive benefits package in a positive and flexible working environment. Please connect with us for more information on who we are and the exciting opportunities we offer. <https://pgavarchitects.com>
